Fixing the Pop-up Blocker in *Skyward*
## Wilmette Public Schools District 39 QuickStart Guide

When you first Login to *Skyward*, you may get this window telling you that your browser Pop-up blocker has prevented the system from opening *Skyward*.

There is a "one-time" fix to prevent this in the future. You can click on the link in this window and follow their instructions OR choose one of the fixes below. We suggest that you fix both *Safari* and *Firefox* right away and not have to deal with it again.

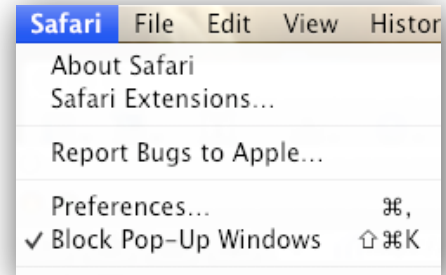

Pop-up Blocker Warning

This warning is to let you know that your pop-up blocker has prevented the system from opening up the application.

We recommend you modify your browser settings to allow pop-ups from this site to prevent this warning in the future.

Click here for instructions on disabling your pop-up blocker.

You may also click the Retry option below to try opening the window again.

[Retry]   [Cancel]

Safari Pop-ups

1) Open *Safari* > Choose **Preferences** > Click on **Security.**

2) Underline the box "**Block pop-up windows**".

NOTE: If you want Pop-up windows for other applications or web sites, you will have to enable it by replacing the check

Firefox Pop-ups

1) Open *Firefox* > Choose **Preferences** > Click on **Content.**

2) Uncheck the box "**Block pop-up windows**".
